DEMO

✉ Message

Dear Mustafa Kaya,

All the Çekicin AI work is now on one start page. The links are grouped into 6 sections: 1 Customer demos · 2 AI modules & tests · 3 Reports · 4 Partnership · 5 Admin panel · 6 Site & technical.

🧭 Start page: https://cekicin-site.elasa2next.workers.dev/ai-lab/start/?lang=en
🎬 Intro video (EN): https://cekicin-site.elasa2next.workers.dev/ai-lab/start/cekicin-intro-en.mp4
📄 PDF (this message + all links): https://cekicin-site.elasa2next.workers.dev/ai-lab/start/cekicin-start-en.pdf
🔐 Admin panel: https://cekicin-site.elasa2next.workers.dev/admin/leads.html#project
Username and password: in the e-mail / WhatsApp message sent to you
🤖 Customer assistant (Telegram): https://t.me/Cekicin_bot

If the main address does not open, backup: https://sosa123454321-cekicin-site.static.hf.space/ai-lab/start/index.html?lang=en

Kind regards

⚡ Quick access

🗂 Link directory — 6 sections

Each section keeps its number and colour on the site, in the panel, in the video and in this PDF.

1 🤖 Customer demos
2 🧩 AI modules & tests
3 📊 Reports
4 🤝 Partnership
5 🔐 Admin panel
6 🌐 Site, mirror & technical

🗂 Link directory — 6 sections

1 🤖 Customer demos

What drivers will use — try it now

Telegram assistant M1–M6 Photo → damage + cost · location → workshop · tow · voice question	https://t.me/Cekicin_bot
Photo test M1+M2 Upload a car photo, see the damage and estimated cost	https://cekicin-site.elasa2next.workers.dev/ai-lab/model-test.html
Spare-part photos M3 Photo, price and listing link of suggested parts	https://cekicin-site.elasa2next.workers.dev/ai-lab/parts-photos.html
Part price database M3 100 car types, 4 countries, prices with source links	https://cekicin-site.elasa2next.workers.dev/ai-lab/price-db.html

2 🧩 AI modules & tests

The 6 modules, measured accuracy and technical tests

The 6 AI modules M1–M6 Goal, test accuracy and demo of each module	https://cekicin-site.elasa2next.workers.dev/ai-lab/modules.html
1000-photo benchmark M1 Large test of damage detection	https://cekicin-site.elasa2next.workers.dev/ai-lab/benchmark-1000.html
Comparison with other models M1 Against open models and papers	https://cekicin-site.elasa2next.workers.dev/ai-lab/compare.html
12 scenarios + video M1–M6 Real-life usage examples	https://cekicin-site.elasa2next.workers.dev/ai-lab/scenarios.html
Waiting-time & CO_2 simulator M6 Fleet simulation (not real data)	https://cekicin-site.elasa2next.workers.dev/ai-lab/impact.html
Wiki: model versions What changed in each version	https://cekicin-site.elasa2next.workers.dev/ai-lab/wiki.html

3 📊 Reports

Project status for management (PDF + video, TR/EN)

Roadmap status report Page: video + PDF, Turkish and English	https://cekicin-site.elasa2next.workers.dev/ai-lab/report/
Report PDF (Turkish) 6 pages, clickable links	https://cekicin-site.elasa2next.workers.dev/ai-lab/report/roadmap-status-tr.pdf
Report PDF (English) 6 pages, clickable links	https://cekicin-site.elasa2next.workers.dev/ai-lab/report/roadmap-status-en.pdf
Task status (live check) Which tasks work, which partly	https://cekicin-site.elasa2next.workers.dev/ai-lab/status.html
Version history All versions and dates	https://cekicin-site.elasa2next.workers.dev/ai-lab/changelog.html

4 🤝 Partnership

For research / co-development partners

Partnership & co-development programme Page: models, funding routes, video + PDF	https://cekicin-site.elasa2next.workers.dev/ai-lab/partners/index.html
Partnership PDF (Turkish) 5 pages	https://cekicin-site.elasa2next.workers.dev/ai-lab/partners/cekicin-partnership-tr.pdf
Partnership PDF (English) 5 pages	https://cekicin-site.elasa2next.workers.dev/ai-lab/partners/cekicin-partnership-en.pdf

5 🔐 Admin panel

Login required — username and password are in the message

🔐 Username and password: in the e-mail / WhatsApp message sent to you

Admin panel · Project Project dashboard, reports, partnership, versions (view-only)	https://cekicin-site.elasa2next.workers.dev/admin/leads.html#project

6 🌐 Site, mirror & technical

🖥️ Demos — test it yourself

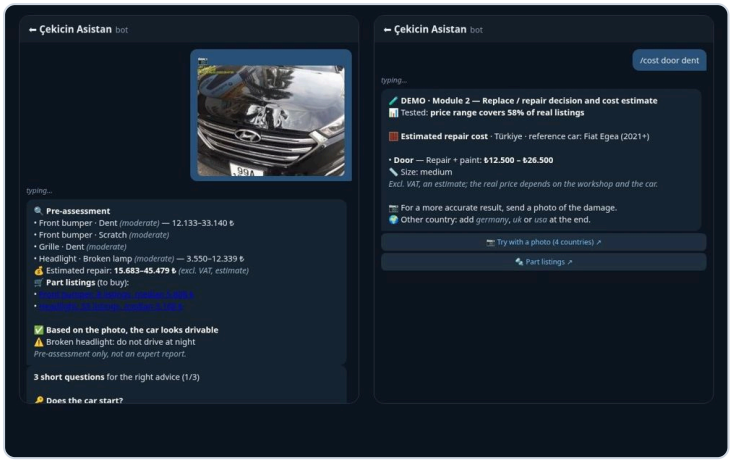

The real output of every link (screenshot of the live site). The link is right under the picture: click it or scan the QR code, follow the steps and compare the result.

🎬 Demo video (using the site, 1:32)

https://cekicin-site.elasa2next.workers.dev/ai-lab/start/cekicin-demo-en.mp4

1 🤖 Customer demos

🎬 Demo video of this section: cekicin-site.elasa2next.workers.dev/ai-lab/start/demo/sec-en-1.mp4

▶ Test link ↗

https://t.me/Cekicin_bot

1 Telegram assistant M1–M6

Photo → damage + cost · location → workshop · tow · voice question

HOW TO TEST

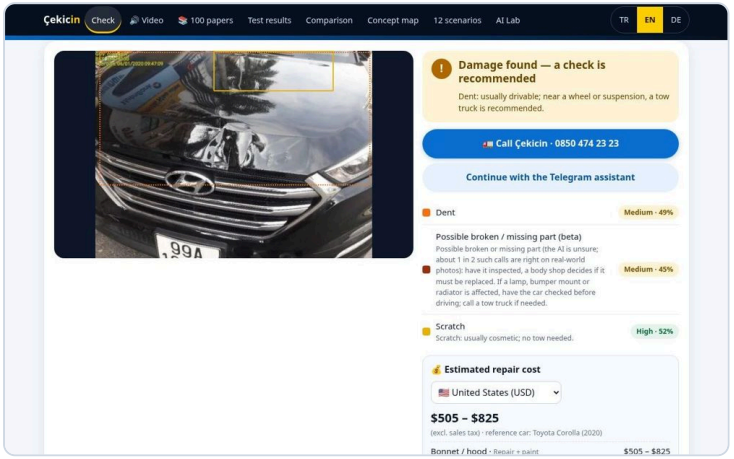

1. Open @Cekicin_bot in Telegram and tap **Start**.
2. Send a photo of the damaged car (e.g. the test photo below).
3. Or type: `/cost door dent`

EXPECTED RESULT

✅ In a few seconds: damage type, location, estimated cost and whether a tow is needed.

📷 Test photo: https://cekicin-site.elasa2next.workers.dev/img/samples/bm33.webp

Screenshot: live site, 27 Oct 2026

▶ Test link ↗

https://cekicin-site.elasa2next.workers.dev/ai-lab/model-test.html

1 Photo test M1+M2

Upload a car photo, see the damage and estimated cost

HOW TO TEST

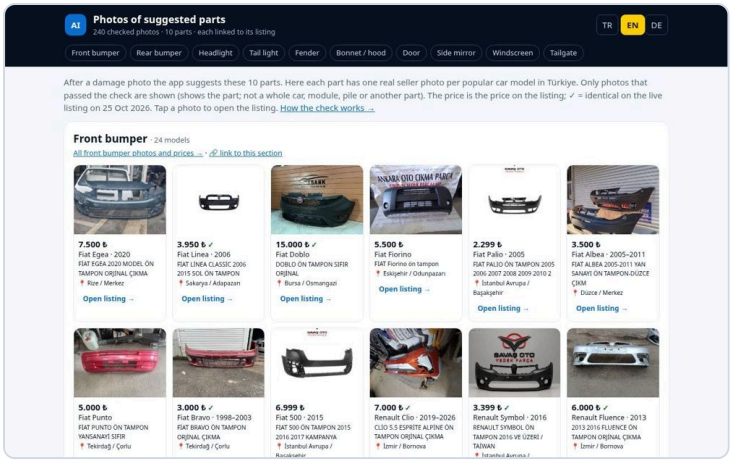

1. Open the page and tap **Choose photo**.
2. Pick a photo of the damaged area (or download the test photo).
3. Change **Country** in the result to see the price in another currency.

EXPECTED RESULT

✅ ~8–20 s: damage boxed on the photo, damage list + confidence, cost range and part listings.

📷 Test photo: https://cekicin-site.elasa2next.workers.dev/img/samples/bm33.webp

Screenshot: live site, 27 Oct 2026

▶ **Test link ↗**

https://cekicin-site.elasa2next.workers.dev/ai-lab/parts-photos.html

1 Spare-part photos M3

Photo, price and listing link of suggested parts

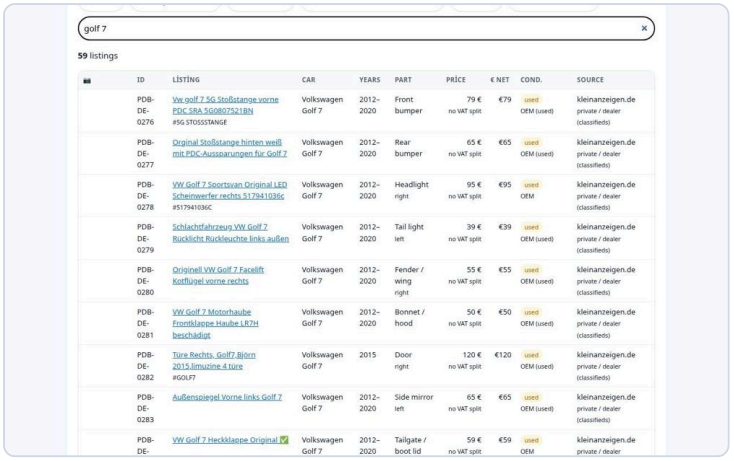

HOW TO TEST

1. Open the page.
2. Tap a part card → the listing link opens.

EXPECTED RESULT

✅ Real listing photos of suggested parts, with prices and source links.

Screenshot: live site, 27 Oct 2026

▶ **Test link ↗**

https://cekicin-site.elasa2next.workers.dev/ai-lab/price-db.html

1 Part price database M3

100 car types, 4 countries, prices with source links

HOW TO TEST

1. Open the page.
2. Type a car name in the search box, e.g. `golf 7`.
3. Change the country / part filter.

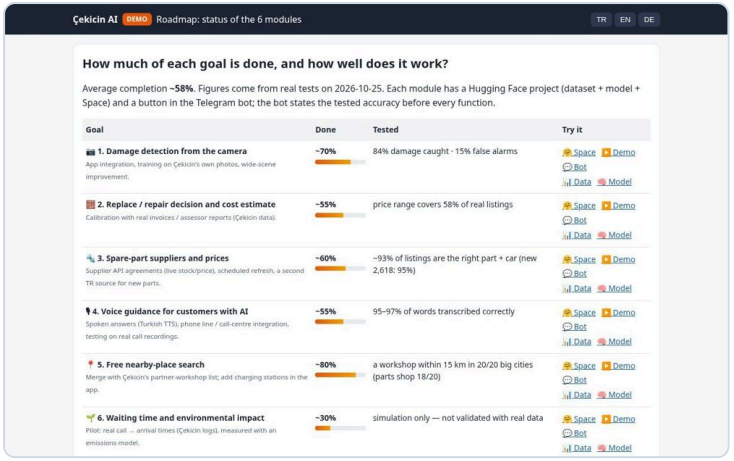

EXPECTED RESULT

✅ Matching listings appear with photo, price, years and source link.

Screenshot: live site, 27 Oct 2026

2 🧩 AI modules & tests

🎬 Demo video of this section: cekicin-site.elasa2next.workers.dev/ai-lab/start/demo/sec-en-2.mp4

▶ Test link ↗

https://cekicin-site.elasa2next.workers.dev/ai-lab/modules.html

2 The 6 AI modules M1–M6

Goal, test accuracy and demo of each module

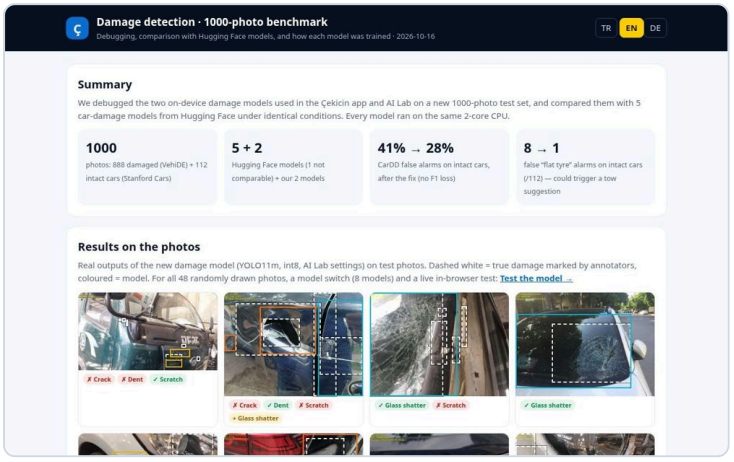

HOW TO TEST

1. Open the page.
2. Tap a module's **Demo** link.

EXPECTED RESULT

✅ Goal, measured test accuracy and demo / data / model links of the 6 modules.

Screenshot: live site, 27 Oct 2026

▶ Test link ↗

https://cekicin-site.elasa2next.workers.dev/ai-lab/benchmark-1000.html

2 1000-photo benchmark M1

Large test of damage detection

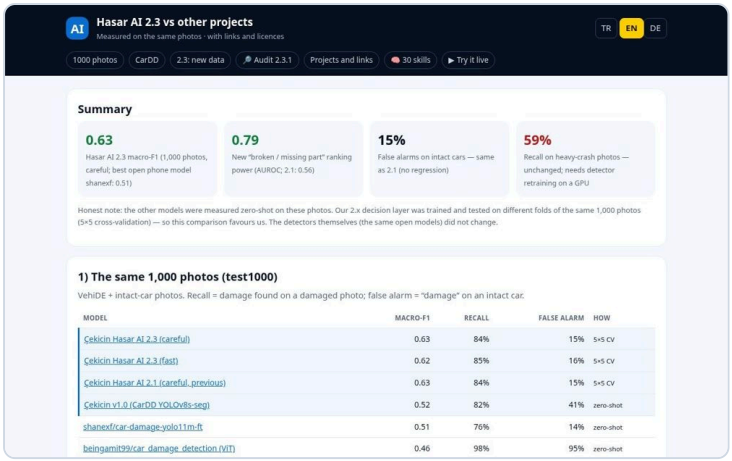

HOW TO TEST

1. Open the page and read the table.

EXPECTED RESULT

✅ Damage-catch and false-alarm rates on 1000 photos, with examples.

Screenshot: live site, 27 Oct 2026

▶ Test link ↗

https://cekicin-site.elasa2next.workers.dev/ai-lab/compare.html

2 Comparison with other models M1

Against open models and papers

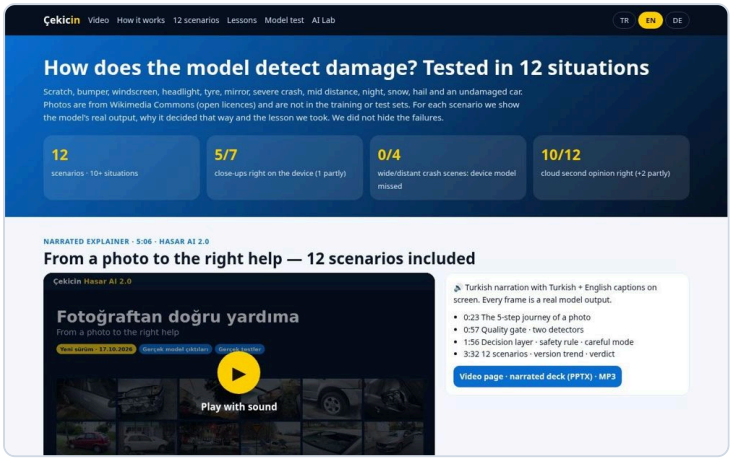

HOW TO TEST

1. Open the page and look at the comparison table.

EXPECTED RESULT

✅ Hasar AI side by side with open models / papers (linked).

Screenshot: live site, 27 Oct 2026

▶ Test link ↗

https://cekicin-site.elasa2next.workers.dev/ai-lab/scenarios.html

2 12 scenarios + video M1–M6

Real-life usage examples

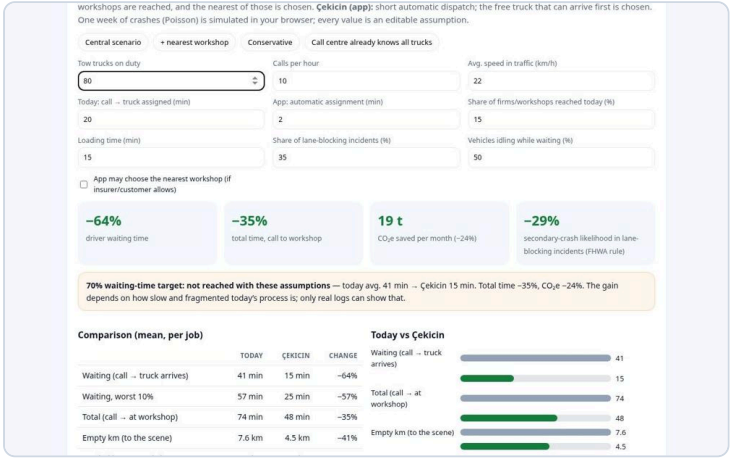

HOW TO TEST

1. Open the page and pick a scenario.

EXPECTED RESULT

✅ 12 real situations (night, rain, far shot…) and the model's result.

Screenshot: live site, 27 Oct 2026

▶ Test link ↗

https://cekicin-site.elasa2next.workers.dev/ai-lab/impact.html

2 Waiting-time & CO_2 simulator M6

Fleet simulation (not real data)

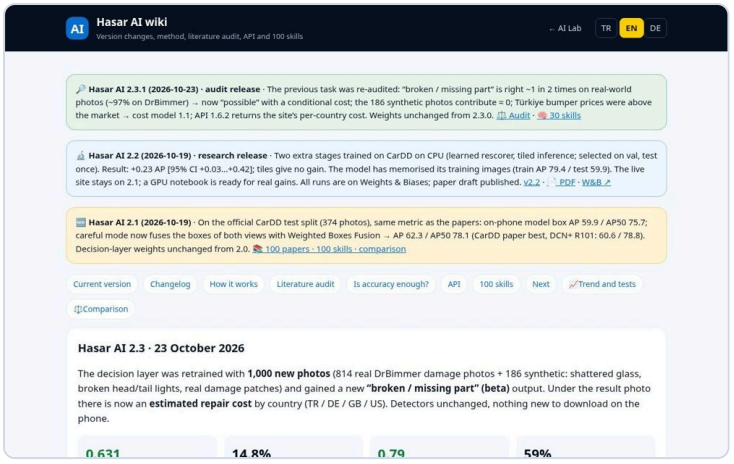

HOW TO TEST

1. Open the page.
2. Change the **number of tow trucks**.
3. Watch waiting time and CO_2 results update.

EXPECTED RESULT

✅ Waiting time today vs with Çekicin, CO_2 difference — a simulation, not real data.

Screenshot: live site, 27 Oct 2026

▶ Test link ↗

https://cekicin-site.elasa2next.workers.dev/ai-lab/wiki.html

2 Wiki: model versions

What changed in each version

HOW TO TEST

1. Open the page and tap a version heading.

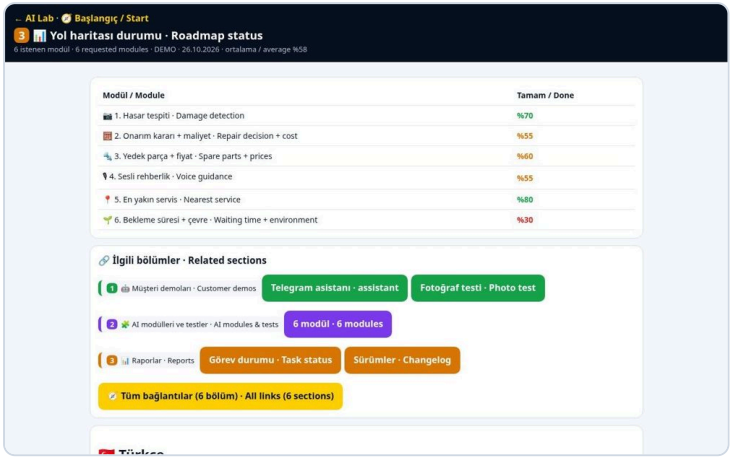

EXPECTED RESULT

✅ Model versions, what changed and why.

Screenshot: live site, 27 Oct 2026

3 📊 Reports

🎬 Demo video of this section: cekicin-site.elasa2next.workers.dev/ai-lab/start/demo/sec-en-3.mp4

▶ Test link ↗

https://cekicin-site.elasa2next.workers.dev/ai-lab/report/

3 Roadmap status report

Page: video + PDF, Turkish and English

HOW TO TEST

1. Open the page.
2. Play the video or tap **Report PDF**.

EXPECTED RESULT

✅ Table of % done for the 6 modules, TR/EN video and clickable PDF.

Screenshot: live site, 27 Oct 2026

▶ Test link ↗

https://cekicin-site.elasa2next.workers.dev/ai-lab/report/roadmap-status-tr.pdf

3 Report PDF (Turkish)

6 pages, clickable links

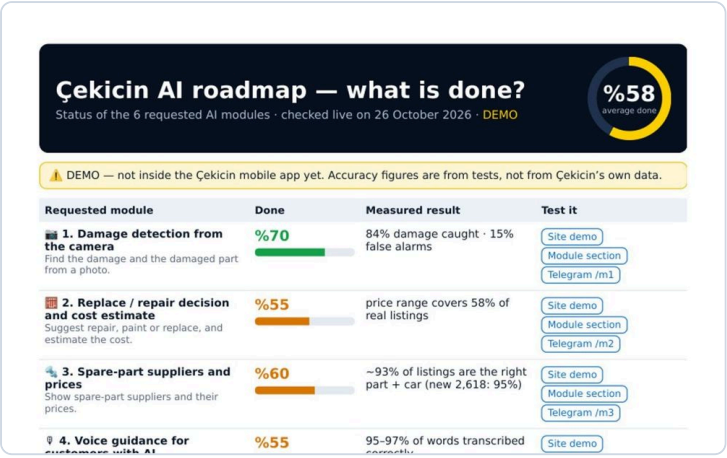

HOW TO TEST

1. Open the PDF and tap the links inside.

EXPECTED RESULT

✅ 6-page Turkish report; each module's test is linked.

Screenshot: live site, 27 Oct 2026

▶ Test link ↗

https://cekicin-site.elasa2next.workers.dev/ai-lab/report/roadmap-status-en.pdf

3 Report PDF (English)

6 pages, clickable links

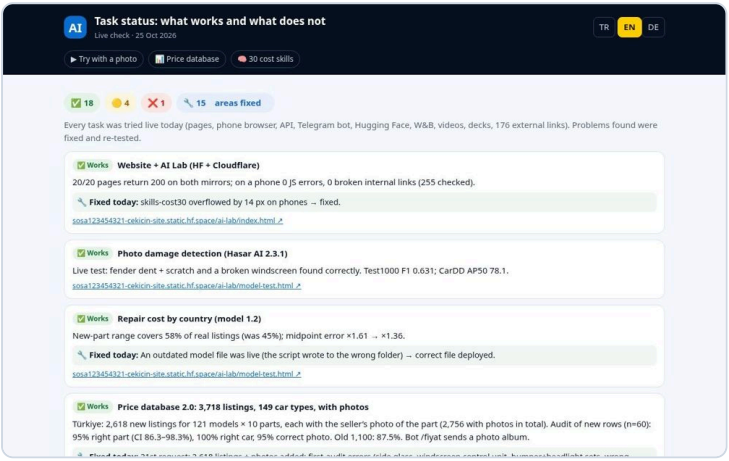

HOW TO TEST

1. Open the PDF and tap the links inside.

EXPECTED RESULT

✅ 6-page English report.

Screenshot: live site, 27 Oct 2026

▶ Test link ↗

https://cekicin-site.elasa2next.workers.dev/ai-lab/status.html

3 Task status (live check)

Which tasks work, which partly

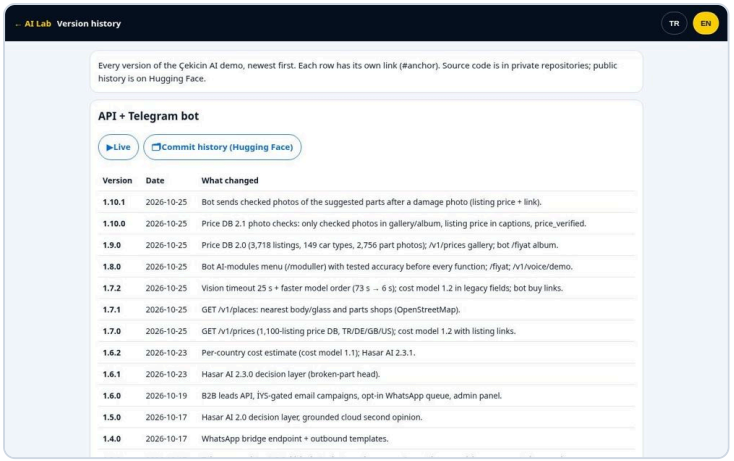

HOW TO TEST

1. Open the page; look at the green / yellow / red marks.

EXPECTED RESULT

✅ Live state of each task: works, partly, not working.

Screenshot: live site, 27 Oct 2026

▶ Test link ↗

https://cekicin-site.elasa2next.workers.dev/ai-lab/changelog.html

3 Version history

All versions and dates

HOW TO TEST

1. Open the page.

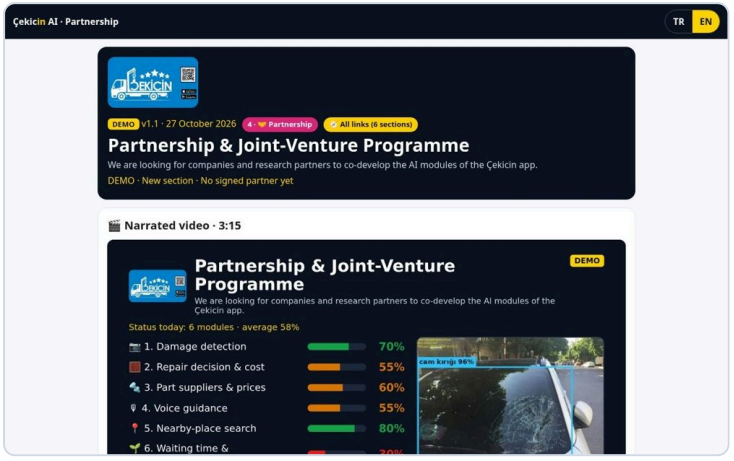

EXPECTED RESULT

✅ Dated list of versions (site, API, model).

Screenshot: live site, 27 Oct 2026

4 🤝 Partnership

🎬 Demo video of this section: cekicin-site.elasa2next.workers.dev/ai-lab/start/demo/sec-en-4.mp4

▶ Test link ↗

https://cekicin-site.elasa2next.workers.dev/ai-lab/partners/index.html

4 Partnership & co-development programme

Page: models, funding routes, video + PDF

HOW TO TEST

1. Open the page.
2. Play the video or open the PDF.

EXPECTED RESULT

✅ 5 partnership models, funding routes, process and contact; TR/EN video + PDF.

Screenshot: live site, 27 Oct 2026

▶ Test link ↗

https://cekicin-site.elasa2next.workers.dev/ai-lab/partners/cekicin-partnership-tr.pdf

4 Partnership PDF (Turkish)

5 pages

HOW TO TEST

1. Open the PDF.

EXPECTED RESULT

✅ 5-page Turkish partnership document.

Screenshot: live site, 27 Oct 2026

▶ Test link ↗

https://cekicin-site.elasa2next.workers.dev/ai-lab/partners/cekicin-partnership-en.pdf

4 Partnership PDF (English)

5 pages

HOW TO TEST

1. Open the PDF.

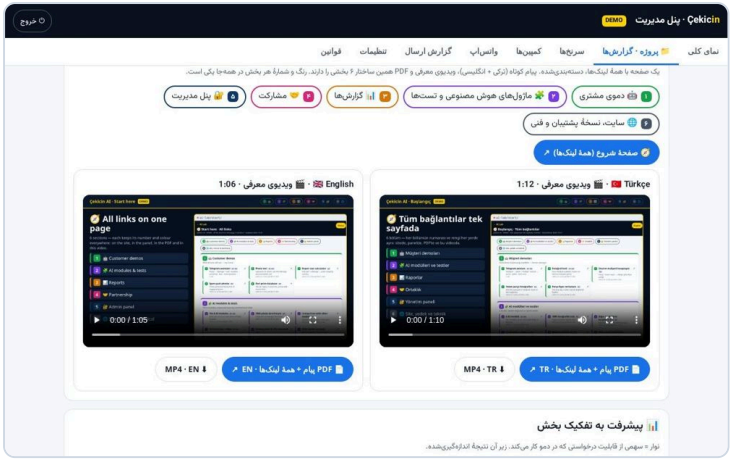

EXPECTED RESULT

✅ 5-page English partnership document.

Screenshot: live site, 27 Oct 2026

5 🔐 Admin panel

🎬 Demo video of this section: cekicin-site.elasa2next.workers.dev/ai-lab/start/demo/sec-en-5.mp4

5 Admin panel · Project

Project dashboard, reports, partnership, versions (view-only)

HOW TO TEST

1. Open the panel.
2. Enter the username and password from the message.
3. The **Project · Reports** tab opens; the “Start here” card is at the top.

EXPECTED RESULT

✅ Project dashboard (Persian): progress, reports, partnership, versions; all pages by the 6 sections.

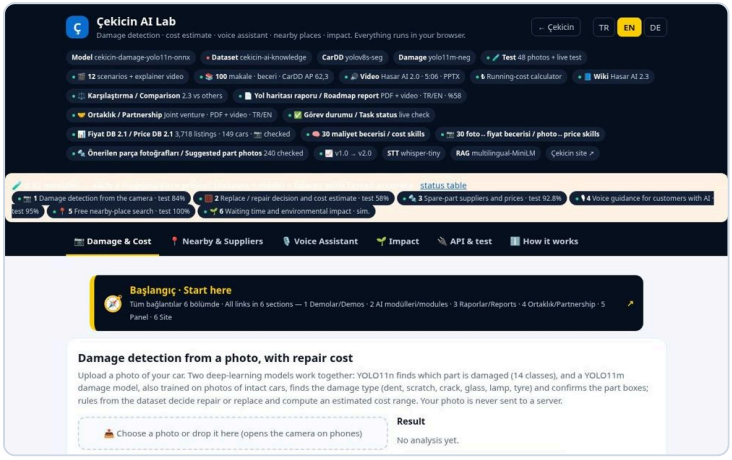

Screenshot: live site, 27 Oct 2026

▶ **Test link ↗**

https://cekicin-site.elasa2next.workers.dev/admin/leads.html#project

6 🌐 Site, mirror & technical

🎬 Demo video of this section: cekicin-site.elasa2next.workers.dev/ai-lab/start/demo/sec-en-6.mp4

6 Çekicin AI Lab home

Entry to all AI pages

HOW TO TEST

1. Open the page; tap the **Start here** button at the top.

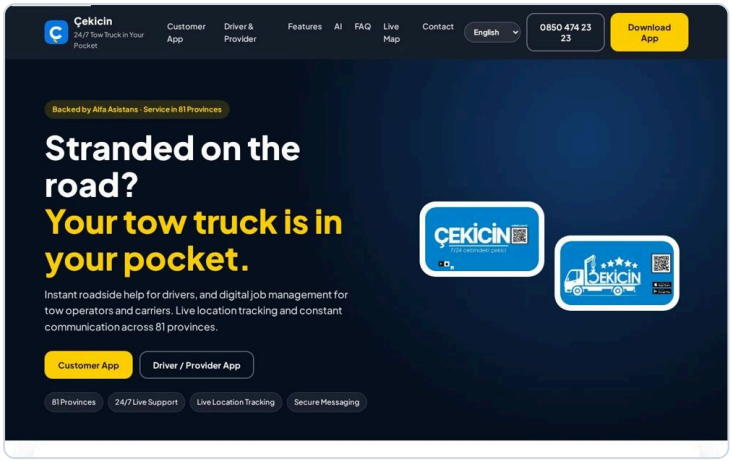

EXPECTED RESULT

✅ Entry to all AI pages and a photo upload area.

Screenshot: live site, 27 Oct 2026

▶ **Test link ↗**

https://cekicin-site.elasa2next.workers.dev/ai-lab/index.html

6 Website home

Çekicin site (Cloudflare)

HOW TO TEST

1. Open the page.

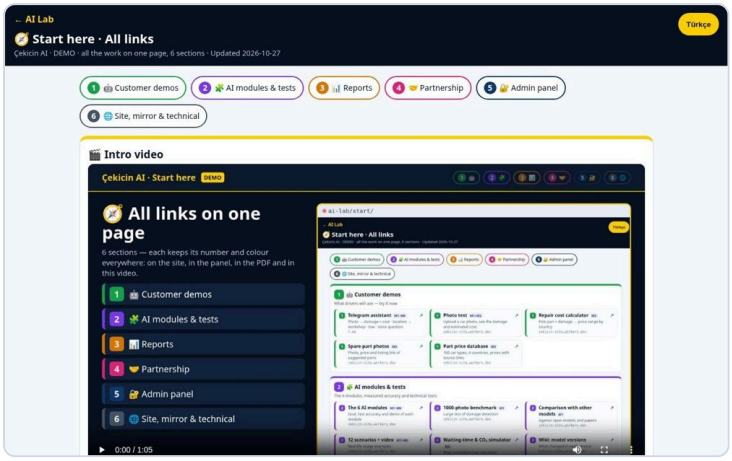

EXPECTED RESULT

✅ The Çekicin website.

Screenshot: live site, 27 Oct 2026

▶ Test link ↗

https://cekicin-site.elasa2next.workers.dev/index.html

6 Backup address (Hugging Face)

This start page if the main address does not open

HOW TO TEST

1. Open this if the main address does not open.

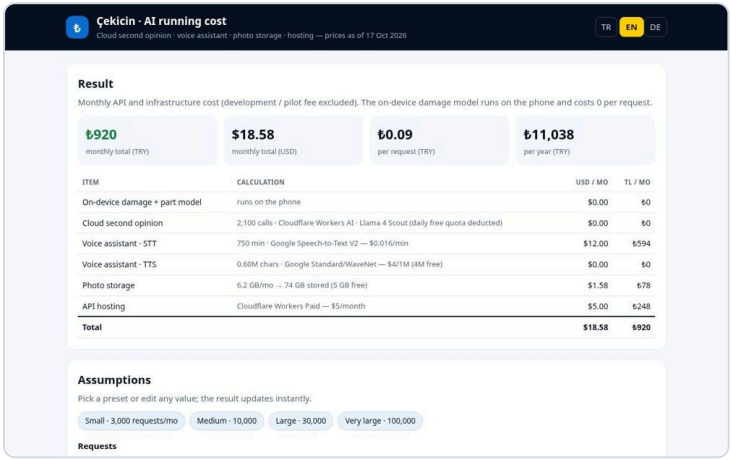

EXPECTED RESULT

✅ The same start page (Hugging Face).

Screenshot: live site, 27 Oct 2026

▶ Test link ↗

https://sosa123454321-cekicin-site.static.hf.space/ai-lab/start/index.html

6 AI running-cost calculator

For the business: monthly cloud / AI cost by request volume (not a customer tool)

HOW TO TEST

1. Open the page.
2. Change the monthly request count.

EXPECTED RESULT

✅ Monthly AI / cloud cost estimate for the business (not a customer tool).

Screenshot: live site, 27 Oct 2026

▶ Test link ↗

https://cekicin-site.elasa2next.workers.dev/ai-lab/maliyet.html

6 API health

Live version check

HOW TO TEST

1. Open the link.

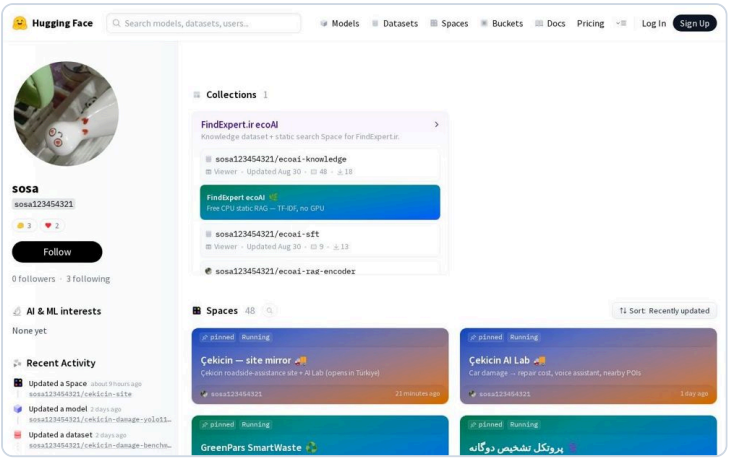

EXPECTED RESULT

✅ <code>{"ok":true,"version":"1.13.1"}</code> — the API is live.

Screenshot: live site, 27 Oct 2026

▶ Test link ↗

https://cekicin-ai-api.elasa2next.workers.dev/v1/health

6 Datasets and models

Hugging Face profile

HOW TO TEST

1. Open the profile; datasets and models are listed.

EXPECTED RESULT

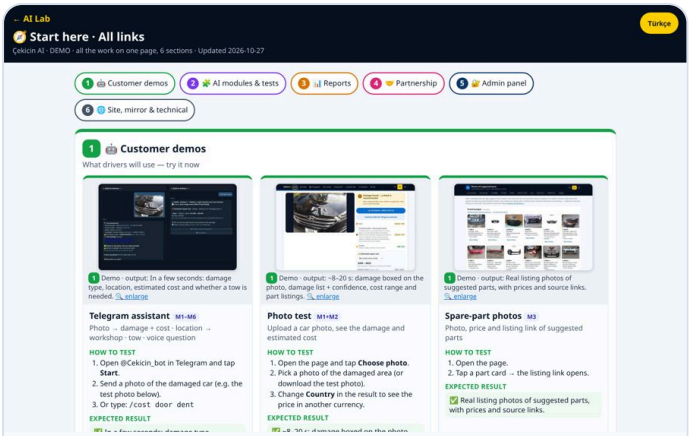

✅ Open datasets, ONNX models and module Spaces.

Screenshot: live site, 27 Oct 2026

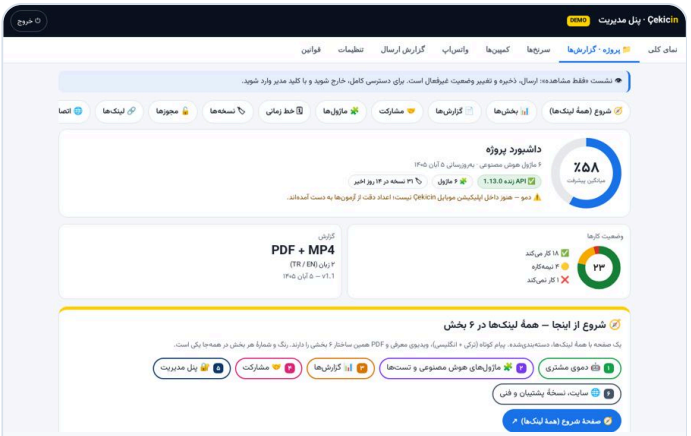

▶ Test link ↗

https://huggingface.co/sosa123454321

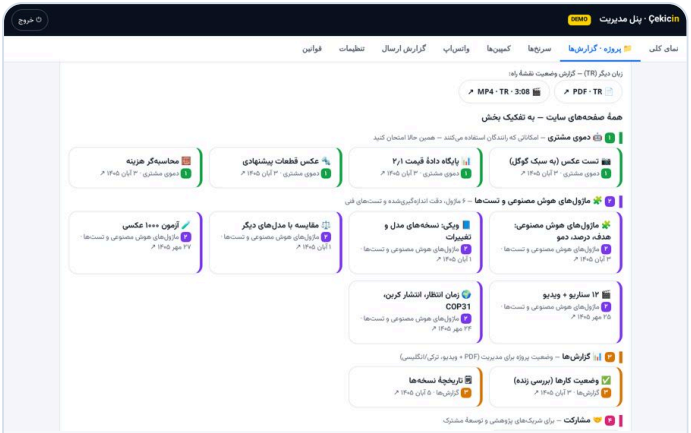

📍 Where is it on the site and in the panel?

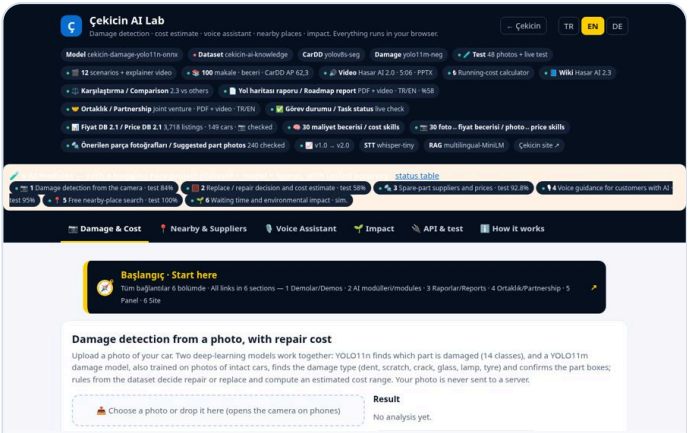

🧭 On the site: Start page (ai-lab/start) — 6 sections, each link says what it is for.

5 In the panel: a “Start here” card at the top of the Project tab; all pages grouped by the same 6 sections.

5 all pages grouped by the same 6 sections.

6 AI Lab home: a “Başlangıç · Start here” button at the top.
